

Feedback on the
prototype heater assembly:

Ming says it's not accurate enough.
Sarah doesn't like the controller.
Ted says it won't fit.

What do they expect?
You can't pull miracles out of a parts book.

**Don't compromise.
Customize.**

Having trouble turning a prototype into a product? Just call Minco. Our custom integrated assemblies give you cost-efficient design options and robust performance you can't get off the shelf. Talk with a Minco engineer at **763.571.3121**. Or visit **www.minco.com**
