

The heater in my prototype...

It really should be smaller.

It really should be faster.

It really should have more
safety margin.

But Management is *really* pushing.

Just go with it?

Don't compromise.
Customize.

MINCO

A critical component of your success[®]

Need a solution with the right fit — right now? Call Minco. Our custom integrated heater/sensor/flex circuits deliver precise thermal control — on time and on budget. So you'll never again have to choose between your deadline or your reputation. Find out how an integrated approach can help you. Talk to a Minco engineer at 763.571.3121. You'll also get a Free Design Guide — visit www.minco.com/customize
